DETAILED ACTION

Claim Objections

1. Claim 14 is objected to because of the following informalities: Claim 14 states MPEG, PES and TS abbreviation without their expanded explanation for clarity. Appropriate correction is required.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
2. Claims 1-6, 10, 14, 15, 19 and 21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
3. In regards to claim 1, lines 12-13 state, "..Information for identifying the start data in the buffer, based on the analysis result from the header analyzing section and the control by the buffer controlling section;"
4. It is unclear as to what "the control" is referring to. The closest limitation in relation to controlling is stated in line 8, which states "controlling a stored position and an accumulated data amount." It is unclear as to which of the two "the control" is referring to, or both or if any. As such, claim 1 is being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
5. Similar issues exist in claims 15, 19 and 21.

Allowable Subject Matter

6. Claims 1, 15, 19 and 21 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
7. Claims 2-6, 10 and 14 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
